## Education

**Birla Vishvakarma Mahavidyalaya Engineering College, V.V. Nagar**

**November 2020**

*Bachelor of Technology in Information Technology [CPI: 9.31]*

*Anand, Gujarat*

**K M Patel Vidhyamandir**

**March 2020**

*High School [12th Board: (Percentage: 81)]*

*Idar, Gujarat*

## Experience

**Grass solutions Pvt. Ltd**

**24/05/2022 – 12/06/2022**

*Web Development Intern*

*Ahmedabad, Gujarat*

- I completed an internship where I gained practical experience working with React, a popular JavaScript library used for building user interfaces.
- I worked on a diverse range of projects, including creating various types of pages and components that were both functional and visually appealing.
- I developed a frontend application that fetched data from a server using APIs and displayed it in a user-friendly manner.

## Projects

**FundRaiser Web App** | *BlockChain, React, MongoDB, NodeJS, TailwindCSS*

- Developed a fundraiser web app on the Sepolia Ethereum Test Network, which allows users to create and donate to fundraising campaigns using their Metamask wallet IDs.
- The frontend of the app was built using React and TailwindCSS, while the backend was built using Blockchain Smart Contract, Node.js and Express.
- The web app includes features such as email notifications for new campaigns, category-based emails for donors, and a chatbot for user queries. These features enhance the user experience and make it easier to stay informed about campaigns and fundraising efforts.

**E-commerce Application** | *React, MongoDB, NodeJS, TailwindCSS*

- I developed an e-commerce web application that allows both buyers and sellers to participate in online transactions.
- The application was built using a combination of React, TailwindCSS for the frontend and Node.js and Express, MongoDB for the backend.
- Buyers can add items to their cart and receive an email confirmation when they confirm their order.
- Sellers have the ability to add products to the website using the Add Item option, which enables them to upload product photos and fill out details about the product.

## Technical Skills

**Languages:** C, C++, HTML, CSS, JavaScript, SQL, Java, Advance Java, NodeJS, Python

**Developer Tools:** VS Code, Eclipse, Android Studio, Remix IDE

**Technologies/Frameworks:** React, Express, MongoDB, TailwindCSS, Bootstrap

## Extracurricular

**BVM Central Developer team Member**

- \* Contributed to various events as a BVM Central Developer team member, including streamlining check-in process for participants at Genisis event through development of e-ticket system with QR codes for entrance verification.

**Developed a user-friendly website for [Quimico Exim]**

- \* As a web developer, I designed and developed a responsive static website for QuimicoExim. The website was tailored to meet the client's needs and was built in NextJS.

**Codechef**

- \* Achieved Codechef 2-star rating in competitive programming.
